

## Mt Pleasant Tennis Club – Level 2 Requirements

Members can gather at venues like our tennis club, but remember that this Covid strain spreads mainly through aerosol contact, and a single person can infect a whole room of people, so please follow the requirements below.

1. Members must contact trace. ie use the QR code on the door/wall. They have been renewed.
  2. We will also make a list of members gathering at each arranged sessions (ie Tuesday morning, Wednesday, Thursday Twilight, and Saturday afternoon). Names only will be sufficient, since we all know each other. There will be a book for making list of attendances, and a named person will be responsible for making the list at each organised session. (Jeff for Tuesday, Jill for Wednesday, Richard for Thursday, duty person for Saturday). Since Will Parker has just resigned as Junior Administrator, the Club will have to find someone for this role for the juniors. This process also cover those members who do not have adequate mobile phones for scanning the QR code.
  3. Hygiene standards must be maintained, especially for clubrooms and toilets etc. Since we will be sharing tennis balls etc, players must wash or sanitise their hands after play *and* before refreshments. Rob, our caretaker/cleaner will clean down surfaces after each Saturday session. Remember that sitting outside is preferable to being inside.
  4. Refreshments will be available but will be preferably be provided by one nominated person.
  5. Gates will remain secured open, to avoid shared contact. Unnecessary touching should be avoided. ie touch elbows or racquets at the end of each game, rather than something involving closer contact.
  6. casual players must be kept separate from members attending organised play. You no longer require to play only within your bubble, but play it safe!
  7. The Club has a written plan for safe operation in place.
  8. If you are unwell, please stay at home.
- None of this is too hard if we all make a little bit of effort.

Jeff Long. Club President. Sept 9, 2021
